

FLASH

HEALTHCARE

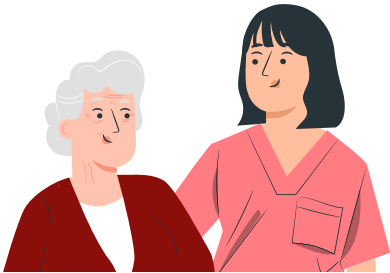

With over a decade of experience revolutionizing the mobility industry, Flash designed the only parking + charging platform built by industry experts to maximize return on investment. Flash's configurable solutions increase business efficiency, patient, visitor and staff experience while driving down operational costs.

360 Degree Healthcare

Parking is the first and last touchpoint your patients, employees, and visitors experience each and every time they arrive at your facilities. A positive parking experience sets a tone of confidence and care before they set foot in the hospital.

Flash helps you configure custom healthcare solutions that improve:

Patient Experience

Minimize stress, time and energy wasted outside the appointment

Deliver an **advanced, integrated valet system** that is convenient (mobile request & pay), on-demand, and efficient

Streamline and enhance ease of parking with **digital, touchless payments & our market-leading mobile app** that enables reservations and wayfinding

Keep lanes moving smoothly with **hassle-free & ultra-reliable kiosks** that offer intuitive access for patients plus cloud-based technology to reduce downtime

Employee Parking Management

Make it easy and stress-free for your staff to get to their jobs

Keep shift changes moving fast with **best-in-class vend times** and a wide range of readers (LPR, RFID, AVI, Bluetooth) to support your busy staff

Reduce encroachment on visitor parking with our integrated suite of camera-based **monitoring and enforcement solutions**

Improve business decisions with **real-time data and intelligence dashboards** to better optimize your fees or permit volumes

Community Connection

Provide enhanced mobility services for your community

Offer green solutions for your staff, patients and visitors with **EV charging** (end-to-end program management included)

Adjust access and rates to **enable off-hour parking** for drivers shopping or dining nearby & **increase demand for your facilities** using ParkWhiz

Discover ways to extend the value of your parking investment + reduce emissions and traffic congestion with **rideshare staging solutions**

Healthcare Partners
